## INGENIOUS: Final Event Conclusions – Future Vision

**A NEXT GENERATION INTEGRATED TOOLKIT (NGIT) FOR COLLABORATIVE RESPONSE,  
INCREASING PROTECTION AND AUGMENTING OPERATIONAL CAPACITY**

This project has received funding from the European Union's Horizon 2020 research and innovation programme and the Korean Government under grant agreement No 833435. Content reflects only the author's view and the Research Executive Agency (REA) and European Commission cannot be held responsible for any use that may be made of the information it contains.

# Conclusions / Achievements

- **Deliverables:**
  - Submitted **65 Deliverables**
- **Milestones:**
  - Achieved **12 MS** associated with the objectives of the project
- **Defined user requirements**
- **Defined the architecture** of the systems and platforms
- Conducted successfully the validation plan included
  - 3 rounds of LITs
  - 2 round of SSTs
  - 2 FSXs + 2 international Workshops of the future tools for FRs
- **Provided 3 prototypes** of all the components
- **Provided 2 prototypes** of the system NGIT

INGENIOUS

# Future Vision

- 12 products identified including part of the NGIT
- Plus the NGIT as a system
- Commercialization of the NGIT
  - Used in real operation to enhance the operation of the FRs during responding to save lives
- Continue to promote our solution through all available channels
- Expand the NGIT adding more features/solutions/tools to offer the ultimate NGIT
